Accreditation and Certification

Our Vision:

Society where Social Justice, Equality and Equability Prevail

Our Mission:

To strengthen the social, educational and economical capacities of poor, Dalit tribal and marginalized communities and farmers which are deprived of their fundamental human rights and to ensure that they live with self-esteem and respectful life .

Governance:

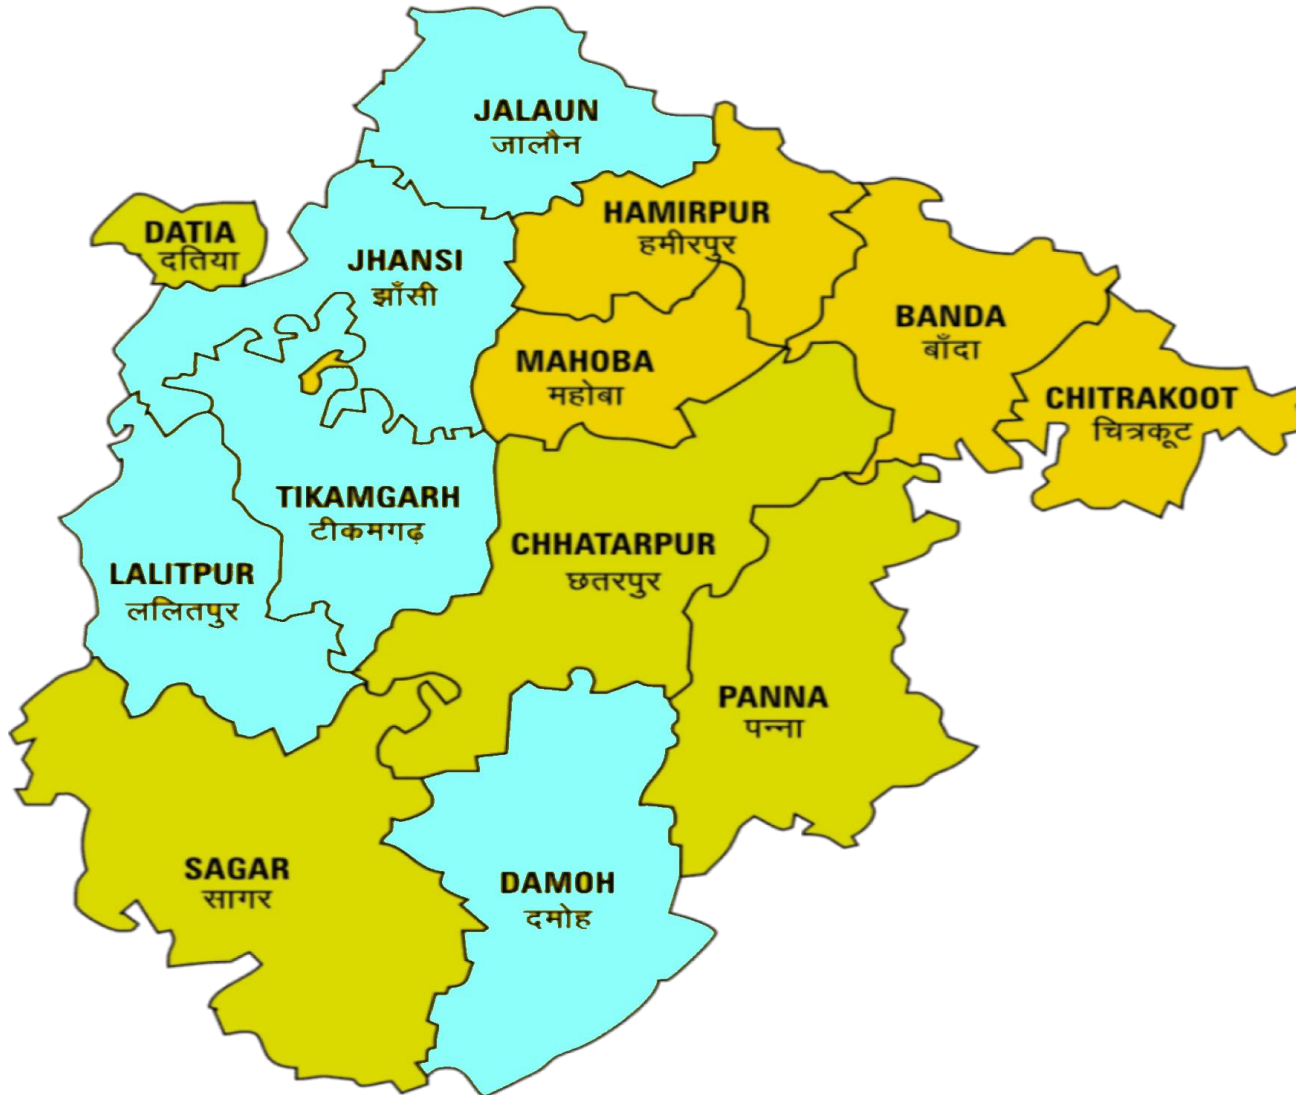

The Bundelkhand Sewa Sansthan has its Governing Board with 07 members. All the members sit together once in a quarter and take decisions related to the plan and strategy for the organization. There is provision also to call emergency meetings of governing board, in case it is required. Organization also conducts General body meeting, once in a year and maintain transparency in systems.

Thematic Focus

- Agriculture Based Livelihoods
- Fruit Tree Plantation Campaign
- River, Resuscitation
- Water Conservation (Watershed)
- Water Hygiene Sanitation
- Tanks Rehabilitation
- Natural Resource Management (NRM)
- Education (RTE & Digital Literacy)
- Health (HIV/ AIDS,T.B And Tobacco Control)
- Women Empowerment
- Institution Strengthening (PRI)
- Renewable Energy
- Advocacy Land rights (forest land Legal aid)
- Human Trafficking & Child Rights/Protection
- Organic Farming
- Disaster management & Emergency relief services

Geographical Focus:

The Bundelkhand Sewa Sansthan (BSS) organization; Our focused and reached Out **District** of Uttar Pradesh and Madhya Pradesh of Bundelkhand Region.

Our Support Organizations

- Bharat Rural Livelihoods Foundation (BRLF) New Delhi
- Swachh Bharat Mission (SBM) Urban Development Department Govt.U.P
- Child Line India Foundation Mumbai Ministry of Women and Child Development Govt. of India .
- Revitalising Rainfed Agriculture Network (RRAN)
- Hindustan Unilever Foundation
- Manav Jeevan Vikas Samiti (MJVS) Katni (MP)
- Earth Day Network (EDN) New Delhi

- DEF (Digital Empowerment Foundation) New Delhi
- Action Aid Lucknow .
- Astha Sansthan Udaipur Rajasthan
- SSK (Sahbhagi Shikshan Kendra), (SSK) Lucknow
- Goonj New Delhi.
- ABSSS Chitrakoot U.P.

Our Ongoing Projects Detail

1. Project Title 1 :-

BUNDELKHAND INITIATIVE FOR WATER AGRICULTURE AND LIVELIHOOD (BIWAL)

2 . Aim of the Project –

Rehabilitation of Chandelkaleen and Bundelkaleen Ancient Tanks .

3 . Program Supported by – SRIJAN & Hindustan Unilever Foundation

Why this Project is Important - As we know that Bundelkhand region is a drought prone and rainfed area, in this area agriculture activities highly affected from drought and climate change .here farmers are depending on rain water based farming irrigation water availability is also very low so water is a main source of here farming system without water availability farmers could not take any agriculture crop. We know that BIWAL project objective is to save water for farmers and enhancement of agricultural livelihood of farmers . hence we understand that program is so important for this area .

Our Initiative in this Project :- In this Program Bundelkhand Sewa Sansthan (BSS) have initiated for the Revival of Ancient Chandelkaleen Ponds, in first phase BSS have choose 3 ponds of 3 villages of Lalitpur District . BSS have been successfully completed De-siltation work of all 3 ponds . Now all the 3 pond are full of water,.Water harvesting and use through open ponds, irrigation tanks and their networks form part of the well-known traditional water management systems in India. Thousands of such ponds and tanks exist even today, all over India. Several States in India recognized the importance of these water bodies in ecological balance, livelihoods of farmers and augmenting ground water resources and have been taking up renovation works in last decades. Though silt removal from the bed of the tanks was done to augment the live and dead storage of the tanks in many such Government and NGO funded programs.it still remained a minor component in the entire work of tank renovation. Transporting the silt for application in the agricultural lands, on a massive scale and with the fullest participation of the farmers is not attempted in many of such initiatives. Given the inherent difficulties in organizing and bringing hundreds of unorganized farmers together around each irrigation tank or a pond, much of the efforts of tank renovations were on physical and functional improvements to the tank structures including its feeder channels and water distribution networks.

BSS Annual Report 2019-20

silt removal and application in agricultural lands is an important component. organizing farmers to voluntarily lift and transport the silt to their rain-fed agricultural lands. This experience demonstrated clear benefit in terms of increased storage capacities of the tanks, enhanced soil fertility, better crop productivity and incomes to farmers. The processes followed in mobilizing informal groups of farmers for this purpose and in systematically organizing the distribution through transparent monitoring processes, have insights that are useful to similar mainstream initiatives. We have Conducted Training of Water Security Plan, Water Budgeting for farmers. we have formed water user Committees such as Tank Management Committee..

Tank Rehabilitation Out Put Data :-

Impact of Tank Rehabilitation and Silt Application Work on Agriculture

Crops Production:-

S.N	Total No. Of Farmers Covered	Total No. of Farmers	Total No. of Associate Farmers
1	545	150	395

After the tank Rehabilitation and Silt use. Production have been increased 10-20 % in Rabi and Kharif Crops.

Project Title 1 :-**INTEGRATED CHILD PROTECTION SCHEME (ICPS)****2 .Program Supported by –****CHILDLINE INDIA FOUNDATION & Ministry of Women and Child Development Govt. of India**

Brief About the Project :- With the support of Child Line India Foundation Mumbai Bundelkhand Sewa Sansthan (BSS) is implementing integrated child protection scheme (ICPS) in block Madawara of district Lalitpur (U.P) . Since 15 may 2018 . BSS protecting children rights and helping them in any difficult problem and situation. They will follow up on children who have returned to the village and provide information when children are being recruited and help the local community to prevent child labour. The role of the Sub-Centre will be to:

- (i) Visit a group of Blocks/ villages, which fall under the area of operation of the particular Sub-Centre. Every sub-centre will oversee a specified number of Blocks.
- (ii) Conduct outreach and awareness regarding the service
- (iii) Intervene in cases referred to by the CHILDLINE Emergency Call Centre and by the volunteers selected at the local level.
- (iv) Maintain proper documentation of area covered during outreach and case interventions referred to the CHILDLINE Emergency Call Centre
- (v) Report to the CHILDLINE call centre regularly about the developments and follow up actions.

Beneficiaries Data of year 2019-20 :-Name of the Scheme: **AN INTEGRATED CHILD PROTECTION SCHEME**

Sr. No.	Date	Name of the child	Sex	Age	Assistance provided
1	11/05/2019	Manshi	F	15	Childline Helped & Rescue to prevent regarding Child Marriage case .

BSS Major Achievements and work experience:-

Successful Story of Odi river Conservation and rejuvenation:-

Odi River is a Main source of Irrigation water of 8 villages to Rejuvenate Odi River we had initiated and conducted first Gram Sabha Meeting in Didoniya Village of Block Madawara. We Mobilized community creating Demand to rejuvenate Odi river, the District Administration has accepted BSS & community Demand .Then DM Lalitpur Mr, Manvendra Singh has decided that District Administration rejuvenate Odi River under MNREGA Scheme,At the end Odi river rejuvenate with the Help of district Administration and Rural Development Department in Block Madawara of Lalitpur District. This initiative is very impact full for these 8 village.Odi river cover 8 revenue villages of block Madawara. Total 3500 families got benefited.for irrigation purpose total irrigated area increased 9600 acre.

Photo of Odi River filled with Rain water After Rejuvenation Process.

Uttar Pradesh Government Appreciated and Awarded to Bundelkhand Sewa Sansthan to Successful Contribution in Odi River Rejuvenation process.

Case Study

Farmer Name – Kishori Kushwaha

Village – Sonrai Block Madawara District Lalitpur

Tank Name – Jalposiya

Activity – Tank Rehabilitation and Silt Application in Agriculture Land

Kishori is a small farmer of sonrai village. He has used Tank silt soil in his half an acre garden. before the Tank silt soil use, Kishori planted only fruit plants in his garden likes Banana,lemon,Guavas etc, because soil of the garden had not so fertile to take other agriculture crops. But After silt soil use now farmer Kishori is also growing vegetables crops in thier garden land, like Lady finger, Brinjal,tomato, etc. Now Farmer Kishori selling his fruits and vegetables in village local market and are boosting their income. total income increased Fifty thousand Rupees per year .

Progressive Farmer Kishori Showing their crops and Horticulture Garden.

BSS Affiliation with Various District Level Departments and Schemes:-

S.N	Name of the Department	Name of the Schemes	Organization Designation /Role
1	Agriculture Department	NFSM & ATMA (National Food Security Mission)	Member
2	Forest Department	District Environment Committee	Member
3	Women and Child Development Department	Women and Child Development Department	Member
4	Health Department	National Tobacco Control Program	Member
5	Education Department	Serve Shiksha Abhiyan	Member
6	Social Welfare Department	Maintenance and Welfare of Senior Citizens	Member

Bundelkhand Sewa Sansthan (BSS) Work Experience & Major Achievements:-

• Energy Sector:- (Supported by TERI New Delhi)

Bundelkhand Sewa Sansthan established the solar charging stations in 10 far flung villages across the forest, where there is no possibility of electricity connection. With efforts of Bundelkhand Sewa Sansthan today 500 households are being lightened with sustainable solar energy source and getting benefited as they are enabled to invest more time for study and other livelihood support activities. BSS leveraged and convergence rupees 250 lac from UP NEDA .

• Health and HIV/AIDS:- (Supported by Unicef)

After finding that there are several affected patients and Bundelkhand Sewa Sansthan established 473 condom depot and made community aware about the risks of HIV/AIDS and unprotected sex. Approximately 400 volunteers have been trained to further spread the message and awareness about HIV/AIDS. Within a one year Bundelkhand Sewa Sansthan facilitated identification of new 1474 infected persons, who have been referred for suitable course of action and medication.

BSS Annual Report 2019-20

- **Land Rights Advocacy:- (Supported By PACS)**

It was found after observations that Block Madawara is the most backward block of the district and landlords and influential have had control over not only common resources but also on the land allocated to tribal and poor community members. With efforts of Bundelkhand Sewa Sansthan (BSS) hundreds of people retrieved rights over their own land. Between 2003 to 2010, 553 households got their rights over 1357 acres of land, which amounts approximately to 6.58 crores.

- **PRI Empowerment:-**

In tribal dominated villages, even tribal PRI representatives were not able to function independently. They had to work under the influence of powerful individuals. Bundelkhand Sewa Sansthan (BSS) put its efforts to build the capacities of the PRI representatives and now quite of them are able to take their own decisions. IN addition, more schemes are being extended to the tribal and marginalized community members. Organization has decided to focus its efforts further on PRI strengthening during next Five years 2015 to 2020.

- **Women Empowerment:-**

Women Empowerment has also been the major issue in case of Bundelkhand region. Most of the women in targeted region are not in position to put forward their points or raise their voice. Organization has formed 207 Self Help Groups in 7 years from 2003 to 2010. These institutions built and enhanced the capacities of the oppressed women. Even they have formed a Block level federation and participating in the main development processes of village and are in way to be equal partner in household decisions. These Institutions, i.e. Women SHG as well as PRI are also being strengthened to address the village level especially the water and sanitation related issues. They have addressed through organizing village level awareness camps, leveraging, Resources for toilet construction, creating and maintaining drinking water facilities in the villages, etc.

- **Education:- (Supported by Unicef)**

With support of Unicef, Bundelkhand Sewa Sansthan (BSS) initiated its interventions in Madawara Block there was significantly low literacy rate. Bundelkhand Sewa Sansthan (BSS) initiated its actions on education front and formed 204 school management committees and trained 1466 members to improve quality of education. Bundelkhand Sewa Sansthan also made women literate with help of TARAakshar programme. 156 women have been benefited with the programme.

- **Agri Based Livelihood enhancement Programme:-**

With support of **Sir Dorabji Tata Trust, Mumbai**, Bundelkhand Sewa Sansthan (BSS) had initiated the watershed based programs. In short duration of two years, it has been successful in extending the improved cropping practices like SRI, SWI, DSR, 50 farm ponds and field bunding etc to 1752 households. There have been 500 direct beneficiaries households of the programs.

- **Gram Swaraj Abhiyan:- (supported by Public Science Institute, Dehradun)**

In this program Preparation of Village Level Micro Planning and facilitation of implementation MNREGA scheme etc. Village level Monitoring Committees to ensure the regularization of village level schemes and service providers in 7 villages of Jakhaura Block. Through this program BSS Rs 1.10 Lack have raised through convergence from different (PRI) government Scheme.

- **Uttar Pradesh Participatory Forest Management and Poverty Alleviation Project, supported by Japan International Cooperation Agency, Japan (Supported by JICA) :-**

In this program Formation of JFM and Forest User Groups and bank linkages for strengthen the people – forest relationship .Preparation of Business plan for local resource based enterprises .Plantation activities to enhance the green cover.

(10) Fruit Tree Plantation Campaign (FTPC) :- 28/07/2017 To 06/08/2018 supported by Sustainable Green Initiative Kolkata:-

With the support of Sustainable Green Initiative (SGI), and CSR. Bundelkhand Sewa Sansthan has planted 112000 fruit tree in 15 villages of Lalitpur District. FTPC aims to Planting and nurturing fruit trees in communities to combat hunger, poverty, and climate change. For this work by Earth Day Network India has been given awarded and certified of Bundelkhand Sewa Sansthan Lalitpur.

District Magistrate Mr.Manvendra Singh IAS and Superintendent of Police Mr.O.P Singh IPS and Mr. Basudev Singh Secretary Bundelkhand Sewa Sansthan Lalitpur Planting fruit tree .

(11) Digital Community Information Resource Center (DCIRC) (Supported by DEF) :-

With the support of Digital Empowerment Foundation (DEF) New Delhi. Bundelkhand Sewa Sansthan (BSS) is operating the CIRC center since 2015 . Bundelkhand Sewa Sansthan has digitally educated 2000 students in 2 years. BSS is giving the Basic Computer education for poor families' children of Lalitpur district. CIRC providing information regarding all the government schemes to the communities of local area.

(12) Pahal Program Support (SRIJAN New Delhi)

In this program Bundelkhand Sewa Sansthan (BSS) had worked in 7 villages of 5 GPs of Madawara block of Lalitpur district (UP). Following activities have conducted by BSS in 7 villages of 5 GPs of Madawara block. BSS leveraged and convergence rupees 150 lac from Manrega and different rural development schemes . Sensitize and train community to demand and fight for their rights and entitlement under MNREGA .Build strong group of women and socially excluded group to take up issues of their right through advocacy and engagement with government at gram panchayat ,block and district level . Make community based organization responsible and accountable for the implementation of other government schemes like GPDP, Health and other .Program promotion and wide dissemination of learning and lesson .

Successful Story of Odi river Conservation and rejuvenation of water bodies (Natural resources) of local areas and we had initiated and Mobilize to rejuvenate Odi river with the Help of district Administration and Rural Development Department in Block Madawara of Lalitpur District .Odi river covered 8 revenue villages of block Madawara . Total families got benefited 3500 for irrigation purpose total irrigated area 9600 acre.

(13) Organic Farming Program (Supported by Individual Donation & CSR) –

Project of promotion of organic & Sustainable farming in Lalitpur District . In this program Bundelkhand Sewa Sansthan (BSS) is working in 2 village Anoura and Masoura of Lalitpur district U.P. BSS currently working with 260 farmers of Anoura and Masoura village. BSS doing following activities for organic farming, like BSS giving organic farming training for Farmers , BSS have Trained the farmers that how they can prepare organic insecticide and manure at home in very low cost . How the farmers can do low cost farming and increase their income.

(14) River Rejuvenation :- An Successful Effort By Bundelkhand Sewa Sansthan (BSS) -

Bandai is a local river arising in the forests of Madhya Pradesh which joins Dhasan River which in turn drains itself into Betwa River. The water of Betwa River drains into Yamuna River which ultimately meets Ganga River in Allahabad. Bandai River traverses through Madawara block of Lalitpur district in Uttar Pradesh. Madawara Block has been facing drought since the year 2003. To protect Madawara area from drought, Bundelkhand Sewa Sansthan (BSS) along with local community based organizations launched a campaign named Bandai River Rejuvenation in July, 2003. The campaign witnessed a lot of ups and downs. But with several resolutions, meetings, foot march and conferences, construction of bunds at eight locations across the river finally began in the year 2010. After the construction of bunds, the water level has risen as rainwater has been since retained, which helped in solving problems related to irrigation and drinking water. All components of the environment are closely linked to one another and water is the most vital component. Thus, by solving water crisis in the Madawara Block, a positive change has been observed in the region. This is one of the many real stories about how nonprofit organizations keep striving for the betterment of the society and protection of the environment. The intensive effort BSS took for solving water crisis in Madawara block needs recognition. It gives other organizations as well as individuals an inspiration to conserve natural resources and fight for their rights.

(15) Child Line India Foundation Mumbai Ministry of Women and Child Development Govt. of India :-

With the support of Child Line India Foundation Mumbai Bundelkhand Sewa Sansthan (BSS) have been implementing integrated child protection scheme (ICPS) in block Madawara of district Lalitpur (U.P) since 15 may 2018 . BSS protecting children rights and helping them in any difficult problem and situation . They will follow up on children who have returned to the village and provide information when children are being recruited and help the local community to prevent child labour. The role of the Sub-Centre will be to:

- (vi) Visit a group of Blocks/ villages, which fall under the area of operation of the particular Sub-Centre. Every sub-centre will oversee a specified number of Blocks.
- (vii) Conduct outreach and awareness regarding the service
- (viii) Intervene in cases referred to by the CHILDLINE Emergency Call Centre and by the volunteers selected at the local level.
- (ix) Maintain proper documentation of area covered during outreach and case interventions referred to the CHILDLINE Emergency Call Centre
- (x) Report to the CHILDLINE call centre regularly about the developments and follow up actions

Introducing SCI in Rainfed Regions – A Pilot Program (supported by People Science Institute (PSI) and Revitalizing Rain fed Agriculture Network (RRAN):-

In this program we have been worked in 2 districts of Bundelkhand region one Lalitpur (U.P) and second Tikamgarh (M.P.) total 300 hundred farmers had been targeted in this program . BSS have trained the farmers about System of Crop Intensification (SCI) method . BSS also have developed some of the farmers as a master trainers at village level .The SCI methods (including SWI which also has an additional advantage of having being scientifically validated) are particularly relevant for resource-limited, nutritionally-vulnerable households of the rainfed regions of India because they rely so little on purchased inputs. They reduce farmers' costs of production and water requirements as well as strengthen their crops' climate-resilience with less year-to-year variation in output. Better root systems and more beneficial life in the soil help to buffer the effects of drought, storm damage, extreme temperatures, and pests and diseases.The goal of the proposed pilot program is therefore to demonstrate, by taking up the case of SWI as well as other crops (pulses, oilseeds and vegetables) in Rabi 2017-2018, how farmers, NGOs and Government agencies can work together for promoting food production and nutritional security among climate vulnerable small and marginal farmers of rainfed regions of India.

Ensuring sustainable livelihood for tribal communities through Forest Right Act and watershed based development in Bundelkhand region of Madhya Pradesh.

(supported by BRLF) :-

In this program Bundelkhand Sewa Sansthan (BSS) is working in 21 villages of Jabera block District Damoh Madhya Pradesh (Bundelkhand Region) . Thematic focus of this program is Land Rights & Entitlements, CBO development, Land and water resource development, Agriculture & allied activities.

COMMUNITY KITCHEN PROGRAM (SUPPORTED BY TATA TRUSTS - THE INDIA NUTRITION INITIATIVE (TINI) :-

Community Kitchen program had been started from 1 may 2016 and operated till 75 days. As a local partner Bundelkhand Sewa Sansthan had done supervision work of this program . Community Kitchen Program implemented in 8 villages of Madawara block of Lalitpur district . in 2016 Madawara block of Lalitpur Dist was facing the poverty , hunger, water crisis due to drought then BSS had requested to Tata trust to operate the community kitchen in some tribal villages of madawara block. then Tata trust selected 8 villages which was suggested by the BSS .

the program was provide Daal and Rice, Sabji, morning and evening to total population 3008 of all the 8 villages of madawara block . Total cost of this program 1.15 crore which was spend by Tata trusts in 75 days .

Bundelkhand Initiative for the Water and Agriculture (BIWAL Supported by Hindustan Unilever Foundation & SRIJAN New Delhi)

In this Program Bundelkhand Sewa Sansthan (BSS) have initiated for the Revival of Ancient Chandelkaleen Ponds, in first phase BSS have choose 3 ponds of 3 villages of Lalitpur District . BSS have been successfully completed De-siltation work of all 3 ponds . Now all the 3 pond are full of water, during siltation work farmers have taken all silt soil from pond for spreading in his farm field. Transportation expences of all silt soil have been done by the farmers. Now our initiatives securing the water availability and improvement of soil fertility and Incensement of crop productivity for the Marginal farmers.
